Points Heaters

Number of delegates: 6
Duration: 1 day
Location: Horsley Cross

Who should attend

Delegates whose work involves the maintenance and/or fault finding of points heaters. The course is designed for delegates who already have a good understanding of points.

Objectives

On successful completion of the course, delegates will be able to:

- Identify all the major components of the points heater systems
- Understand the reasons why points heaters are required
- Understand the basic principles of operation of points heaters
- Order the correct components for maintenance and repairs
- Test the trackside components to highlight any problems or issues
- Understand the basic maintenance requirements for points heater systems
- Know the limits of authority when working with points heaters

Learning approach

100% classroom-based including theory sessions using PowerPoint, visual aids and scenarios.
A theory assessment will be carried out to verify delegates' understanding and a certificate will be issued to candidates achieving an 80% pass mark.

Pre-requisites

Delegates need a good knowledge of working with points.
